

Fairview Fellowship Home Improves Productivity; Selects NOVAtime As Their Workforce Management Solution

Using NOVAtime's Monthly Staffing Report saves 15 to 20 hours every month in filling out government-reports.

Fairview Fellowship Home has been serving Northwest Oklahoma with some of the finest accommodations for seniors in the state of Oklahoma since 1961. It is a 126-bed skilled nursing facility with an additional 36 independent apartments. Using NOVAtime, Fairview Fellowship Home has more time to focus on maintaining a safe, healthy, and happy lifestyle for their residents.

Fairview Fellowship Home use NOVAtime's biometric workforce management solution to manage their employees. Fairview Fellowship Home saves money and gains control with their NOVAtime Time and Attendance / Workforce Management system.

Some of their major savings and benefits are:

- Using the biometric hand readers, they were able to eliminate and address the issues of lost or forgotten badges. Their employees' hands are their badges.
- Using the NOVAtime Monthly Staffing Report, they are able to save 15 to 20 hours every month in filling out the government-mandated Quality of Care report. On a monthly basis long term care (LTC) administrator must turn in a report illustrating the number of RN's, LPN's, and other health care staff members by shift segments to make sure that they have the proper amount of coverage based on their patient census for government reimbursement. For each shift, the Monthly Staffing Report lists actual work coverage by employee based on the day of a month. It is a great tool to manage work schedules and employee coverage to ensure proper personnel coverage for each work schedule / shift. Crucial resource for many industries, such as restaurants and nursing homes.
- Gets better control and visibility of their overtime spending by scheduling employees appropriately and reviewing their actual work hours with many great reports provided in the NOVAtime system.

"The NOVAtime system is used by nearly one third of the nursing homes and long term care facilities in the state of Oklahoma, all proudly serviced by Compu-Time Corporation."

Group by shift differential segment

Bob Dover of Compu-Time Corporation stated, "The NOVAtime system is used by nearly one third of the nursing homes and long term care facilities in the state of Oklahoma, all proudly serviced by Compu-Time Corporation. Our return on investment is amazing!" Fairview Fellowship Home and most of the nursing homes and LTCs depend on other key features like the ability to calculate shift and weekend differentials, flexible sort options on the NOVAtime report engine, meal deduction parameters, and the ability to export to many different payroll bridges.

Many nursing home facilities all over United States also use the NOVAtime's time and attendance solution to manage their workforce. For more information on how to improve the productivity at your nursing home and/or LTC facilities, please contact NOVAtime for the nearest certified reseller.

For more information on NOVAtime and how they can help you streamline your workforce management needs, please email sales@novatime.net or call 877.486.6682.
