

Labor Temps Gains Insight Into Its Workforce Using NOVAanalytics

NOVAtime Technology, Inc. (<http://www.novatime.com>), a leading provider of enterprise Time and Attendance / Workforce Management solutions, announced today that long-time NOVAtime client Labor Temps, a staffing and managed services solution provider, has implemented NOVAtime's NOVAanalytics application, which provides advanced reporting and data visualization capabilities.

"We decided to adopt NOVAanalytics because our clients needed robust metrics, and the application provides just that."

Known as the "Yes We Can" company, Labor Temps provides a comprehensive array of staffing solutions to organizations in the Chicago area and has benefitted from NOVAtime's workforce management solutions for the last 12 years. With over 1,000 employees across 20 locations, Labor Temps has seen significant savings in terms of time and money by automating its time and attendance processes and has successfully adopted new NOVAtime solutions as they are released thanks to the skilled guidance of Longley Systems, authorized reseller of NOVAtime products in the Chicago area.

Always on the lookout for leading-edge solutions to help their clients better manage their businesses, Labor Temps was an early adopter of NOVAtime's recently released NOVAanalytics application. Harnessing the power of web APIs, the application is a business intelligence tool that allows non-technical users to transform real-time data into actionable analytics, including ad hoc reports, interactive data visualizations, presentations, and personalized dashboards.

"We decided to adopt NOVAanalytics because our clients needed robust metrics, and the application provides just that." says Phil McMahon, President of Labor Temps. The application's variety of configurable templates, coupled with the powerful Pivot table and querying capabilities of Excel, provide endless data visualization options.

Labor Temps' NOVAtime system was installed and is being supported by Longley Systems. Over more than a decade, Longley Systems has served as an invaluable partner to Labor Temps, ensuring they have the right solutions to simplify their business operations. "Longley Systems is AWESOME! They have been instrumental in making things work," says Mr. McMahon. NOVAtime is proud to partner with Longley Systems (<http://longleysystems.com/>) to provide an elite workforce management solution to Labor Temps.
